OBJECTIVE

Driven Professional with a unique dual expertise in Economics and Computer Programming, offering 5+ years of experience in software development alongside practical expertise in cost accounting. Proven track record in building scalable applications (Flutter/NestJS) and optimizing industrial financial workflows through automation and ERP systems. Adept at data analysis, cross-functional team collaboration, and solving complex operational challenges under pressure.

PROFESSIONAL EXPERIENCE

JNR Mensucat A.Ş.

October 2025 – Present

Cost Accountant

Türkiye/Osmaniye

- Manage manufacturing cost accounting, inventory control, and variance analysis for a large-scale industrial textile plant with over 1,000 employees.
- Develop custom Excel VBA macros to automate routine financial workflows, accelerating data processing between primary accounting and cost modules.
- Collaborate with cross-functional teams (warehouses, production, and finance) to streamline operational data flow and generate periodic cost reports for executive decision-making.

Freelancer / Independent Developer

January 2025 – Present

Flutter Developer (Lead)

Remote

- Working independently on Flutter projects for clients and open-source communities, focusing on scalable architecture and clean code.
- Maintaining and improving published applications such as Otelctrl and Mawjood, ensuring performance, reliability, and ongoing feature updates.

Starstech

May 2024 – January 2025

Flutter Developer

Remote

- Led a small team of developers to ensure timely and high-quality project delivery.
- Developed and maintained Flutter applications for diverse client needs, integrating RESTful APIs and Firebase.
- Collaborated directly with clients and UI/UX designers using tools like Figma and Jira.
- Implemented native Swift code snippets in Flutter projects when necessary.

Freelancer

February 2023 – April 2024

Flutter Developer (Lead)

Remote

- Handled all Flutter development for various projects; responsible for architecture, implementation, publishing, and maintenance.
- Developed custom applications tailored to local and global markets with full backend integrations.

Tapyazılım

January 2022 – June 2023

Flutter Developer

Türkiye/Konya

- Worked on an ERP project designed for industrial companies, ensuring optimal performance and scalability.

Starstech

June 2021 – September 2021

Flutter Developer

Remote

- Developed innovative real estate applications and enhanced user experiences.

EDUCATION

Karamanoğlu Mehmetbey Üniversitesi

July 2019 – February 2024

Bachelor's in Economics

Karaman, Türkiye

Karamanoğlu Mehmetbey Üniversitesi

May 2020 – March 2024

Associate degree in Computer Programming

Karaman, Türkiye

SKILLS & ABILITIES

Mobile Development: Flutter, Dart (5+ years), Kotlin (Basic), Swift (Basic).

Backend & APIs: NestJS (Mid-level), Laravel (Basic), RESTful APIs, Firebase, Dio, Retrofit.

State Management: BLoC (main), Provider, GetX, Riverpod.

Databases: Firebase, SQL, Room (Local Storage), PostgreSQL.

Tools: Android Studio, Xcode, VS Code, Git/GitHub, Jira, Trello.

Testing & Deployment: Unit, widget, integration testing; CI/CD; publishing on Google Play & App Store.

AI Tools: ChatGPT, Cursor, Copilot, DeepSeek, Gemini, Qwen, Claude.

Finance & Operations: Cost Accounting, Financial Analysis, ERP Systems, Advanced Excel & VBA Automation.

Languages: Arabic (Native), Turkish (Advanced), English (Intermediate).

Soft Skills: Problem-solving, teamwork, communication, and ability to work under pressure.

PROJECTS

ThumbnailFire	2025 – Present
– Owner & Full-Stack Engineer: Designed and built a comprehensive web platform for content creators using a modern tech stack. – Developed the robust backend using Nest.js and PostgreSQL, implemented the user frontend with React.js, and architected the advanced admin dashboard using Next.js. – Published: Web	
Otelctrl	2024 – Present
– Owner & Lead Developer: Architected, developed, and launched a comprehensive booking & subscription management system for hotels and car rental businesses. – Built using Flutter (Dart 3.8+), BLoC, go_router, Dio, in_app_purchase for Google/Apple subscriptions, and multi-language (AR, EN, TR) support. – Developed the backend with NestJS 11, TypeORM, PostgreSQL, JWT authentication, and webhook handling for real-time subscription validation. – Includes: admin dashboard (React), financial reporting, and data models for users, rooms, cars, bookings, and subscriptions. – Published: Web Google Play App Store	
Chatberry	2025
– Lead Flutter Developer: Handled the complete mobile application architecture, development, and deployment of the Chatberry messaging app from scratch. – Collaborated closely with the backend developer to integrate RESTful APIs and optimize real-time data flow for messaging features. – Published: Google Play App Store	
Mawjood	2025
– Flutter Developer for Mawjood, a next-gen shopping companion app delivered as a client project. – Implemented robust state management (BLoC/Cubit), advanced dependency injection (get_it), and efficient networking with Dio. – Managed localization (AR/EN), local storage (Hive), and type-safe routing (go_router) across all features. – Established high code quality with code generation, layered testing (unit, widget, bloc), and CI/CD best practices.	
curved_nav_fixed_center (Flutter package)	2024
– Author and maintainer of the open-source Flutter package curved_nav_fixed_center published on pub.dev. – Provides a customizable curved bottom navigation bar with smooth animations, compatible with Android, iOS, Web, and Desktop.	
withu & withu Business	2024

- Team Lead & Flutter Developer: Led a small development team overseeing the core technical architecture and timely execution of the real estate platform.
 - Maintained and developed the dedicated mobile app **withu business** tailored for corporate clients and property management.
 - Platform: Web
- Maktab (Tenant) 2024
- Lead Flutter Developer. Led the architecture and development of the tenant app within a corporate environment.
 - Published: App Store | Google Play
- Maktab Business 2024
- Lead Flutter Developer. Oversaw the technical implementation and delivery of the business app for the company.
 - Published: App Store | Google Play
- Ameer Taxi 2024
- Flutter Developer. Implemented core app logic and major features as part of the development team.
 - Published: App Store | Google Play
- Aqar Tadawul 2021
- Flutter Developer. Contributed to modules of a real estate trading app within a team-based setting.
 - Published: App Store
- My Kitchen 2021
- Owner & Lead Developer. Developed and published a social recipe app for Android.
 - Published: Google Play
- Offers App 2021
- Owner & Lead Developer. Designed and built a deals tracker and offers app for Android.
 - Published: Google Play
- Other Notable Projects
- Lanquiz (GitHub): Language learning through quizzes and word training.
 - Veterinary Management App (GitHub): Manage treatment, stock, and pricing.
 - Al-Fityan App (Web): Parent/student progress monitoring.
 - Mishkah App (Web): Group management for teachers.
